Building long term relationships.

Servicing commercial and industrial units across the GTA and Niagara, we offer 24/7 emergency service to our clients and quick guaranteed response time. With our commercial experience, we are able to provide service calls, preventative maintenance plans and installations. We strive to complete our work on time and meet deadlines for un-interrupted business continuation.

We educate our customers so that they feel comfortable with the solution provided. Technicians are fully licensed and TSSA certified. Polair HVAC is bonded, insured and in good standing with WSIB. We take pride in our customer service skills and always follow up, ensuring client satisfaction upon completion.

Preventative Maintenance Packages

Preventative maintenance is recommended to minimize costly repairs and disruptive downtime. This ensures the safety and reliability of all equipment. It also optimizes systems performance, efficiency and longevity. During quarterly/semi-annual preventative maintenance, if a malfunction is discovered, we make appropriate recommendations and can fix it promptly. "An ounce of prevention is worth a pound of cure". Regular maintenance will help you avoid unplanned interruptions of business, loss in your inventory, and expensive damage to your equipment/building.

POLAIR
Heating & Air Conditioning

Dwaine Dyke, Caring Owner

He is a fully Licensed HVAC Refrigeration Technician, with Gas Fitter 1 certification. He has been working in the industry for 12 years. Dwaine is called in to service issues that other service providers cannot diagnose. He is known to 'put out the fires', and always welcomes a good challenge!

Dwaine started Polair 3 years ago. He saw the need for customer education, offering a higher level of customer service. His priority is to provide clients with the best possible solution, explaining their needs in an understandable way. As an owner of a growth-mode company, his main goal is loyalty and commitment to every client. Polair employs a managed growth strategy through referrals, and all clients are valued equally. Dwaine strives to complete jobs quickly and efficiently, so your business continues to run un-interrupted, problems are resolved and projects are successfully completed.
